RC-11TB

Wall Plate Insert - 1-Button Contact Closure Switch

The RC-11TB is a remote 1-button momentary contact closure switch ideal for remote control in boardrooms and conference rooms. It is a single slot wall plate insert that can be used with the SID-X1N step-in commander or any other Kramer product with contact closure control.

FEATURES

- Contact Closure Button - Remotely takes control of the input of a machine via its remote contact closure terminal blocks. Larger button than the RC−10TB.
- Companion Product for Step-In Commanders.
