

RC-43T

6-Button KNET™ Auxiliary Control Panel

The RC-43T is a 6-button auxiliary control panel that works as a remote control panel for master room controllers such as the SL-1 in classrooms, boardrooms or auditoriums. The RC-43T buttons are touch-sensitive and give press confirmation using their LEDs.

FEATURES

- Front Panel Buttons - 6 configurable, touch sensitive with indicator LEDs.
- K-NET™ Control Channel - Provides power and control data to the wall plate controllers over a single cable.
- K-NET™ Connector - Connects to other control panels or a central control processor.

RC-43T
