

## **VP-728/729/730/731 Firmware Upgrade Procedure**

1. Acquire xxx.brec file with the required version of firmware.
2. Copy this file to the root directory on any USB readable memory device (disk-on-key, flash memory card etc.).
3. Plug the device with the firmware file into USB connector of the VP-728/729 and switch on the scaler.
4. Wait until the scaler boots up and then use OSD menu to navigate to Setup>Advanced Setup>Misc>Firmware Download
5. Use UP and DOWN arrows to highlight the required firmware file and press ENTER button.
6. Confirm the upgrade and wait until progress indicator gets to 100%.
7. Restart the scaler by recycling the power.
